# ASCENDER™ 2010 FONT PACK

for Microsoft® Office 2010

---

The Ascender 2010 Font Pack features a distinguished and versatile set of 14 fonts with enhanced OpenType features to showcase the advanced typographic features that are new in Microsoft Word 2010 and Microsoft Publisher 2010.

The fonts were developed by the type experts at Ascender Corp and optimized for Office 2010. Included are brand new versions of Microsoft's Comic Sans and Trebuchet typeface families with new weights/styles. The Ascender 2010 Font Pack is available exclusively from [www.Fonts.com](http://www.Fonts.com).

## HOW TO APPLY OPENTYPE FEATURES

1. Select the text you want to format.
2. On the Home tab, click the Font Dialog Box Launcher (in the lower right corner).
3. Click on the Advanced tab to see the OpenType features. (Note: the illustration on the right is from Microsoft Word 2010. The Font menu in Publisher 2010 is slightly different.)

Tip: "What if the OpenType features are greyed out? The OpenType Features section will be grayed out when text is selected with a font that does not have OpenType features. Also, the OpenType Features will be grayed out for any document opened in Compatibility Mode.
